Closing of Station 33. If there was an issue at Easton Elementary School and Station 33 is not there what would the response time be say at 5:00 pm on a weekday?? I would estimate at least 10/15 minutes - if you child was in need of service would you be ok with that response vs. 3 minutes?? What about if there is need of multiple responses where will the coverage come from?? Did this "commission" look at the map?? Is the "commission" willing to move to the Easton area and wait for help?? What about fire insurance rates? Longer response higher rates. Close the fire house - lower my taxes??

Your Feedback

I encourage the City Council to consider the closure of the Fire Station #30; 35000 Eastin Ct, Union City, CA 94587.

This station was meant to be a multi-jurisdictional station. It does serve both Union City and Newark, but the cost to man the station is outweighed by the number of calls for serve. I live within the area serviced by the station and think my neighborhood and the City would be better served with the funding redirected to other City Services and Staff salaries.

Best regards
